

# Dashboard 2: Menu & Product Performance

## Dashboard Topic

### Menu Performance and Product Analysis

This dashboard provides a comprehensive overview of menu performance by analyzing product sales, category revenue, product popularity, customer ratings, preparation time, and product profitability.

The main purpose of this dashboard is to help restaurant managers identify best-selling menu items, evaluate category performance, and support pricing, menu optimization, and operational decisions.

---

## Audience

- Restaurant Managers
  - Operations Managers
  - Marketing Team
  - Business Decision Makers
- 

## Business Questions

- How many menu items are available?
  - How many product categories exist?
  - Which menu items generate the highest revenue?
  - Which product categories contribute the most revenue?
  - Which menu items are ordered most frequently?
  - Which menu items receive the highest customer ratings?
  - Which categories require the longest preparation time?
  - How is revenue distributed across products and categories?
  - Which categories sell the highest quantities?
  - Which categories generate the highest average order value?
- 

## Analysis Results and Answers

# 1. Total Menu Items

The restaurant offers **20 menu items** across all categories.

---

# 2. Total Categories

The menu consists of **5 product categories**:

- Pizza
  - Burger
  - Pasta
  - Dessert
  - Drinks
- 

# 3. Top Revenue-Generating Menu Items

The highest revenue-generating products are:

- Margherita — **709,533**
- Pepperoni — **687,731**
- Alfredo Pasta — **545,202**
- BBQ Chicken — **527,262.5**
- Classic Burger — **476,731**

Margherita is the restaurant's highest revenue-generating menu item.

---

# 4. Revenue by Category

Category performance is ranked as follows:

- Pizza — **2,227,595.50**
- Pasta — **1,518,088.00**
- Burger — **1,508,554.00**
- Dessert — **316,514.75**
- Drinks — **290,375.75**

Pizza contributes the largest share of total restaurant revenue.

---

# 5. Most Frequently Ordered Menu Items

The most ordered products are:

- Margherita — **2,067 orders**
- Pepperoni — **1,667 orders**
- Classic Burger — **1,501 orders**
- Alfredo Pasta — **1,352 orders**
- Cola — **1,350 orders**

Margherita is the restaurant's most popular menu item.

---

## 6. Average Customer Rating by Product

Most menu items receive an average customer rating close to **3 out of 5**.

Cheesecake, Ice Cream, and Water achieved the highest average customer ratings at approximately **4 out of 5**.

---

## 7. Average Preparation Time by Category

Preparation time varies significantly between product categories.

- Pizza — approximately **22 minutes**
- Pasta — **18–19 minutes**
- Burger — **16–17 minutes**
- Dessert — **8 minutes**
- Drinks — **6 minutes**

Pizza requires the longest preparation time due to its cooking process.

---

## 8. Revenue Distribution by Product Category

Revenue is primarily concentrated in Pizza, Pasta, and Burger products.

Pizza products account for the largest proportion of restaurant sales, while Desserts and Drinks contribute a relatively small share.

---

## 9. Quantity Sold by Category
