

Dashboard 3: Branch & Operations Performance

Dashboard Topic

Branch Performance and Operational Efficiency

This dashboard provides a comprehensive overview of branch performance by analyzing revenue, order volume, waiter performance, customer satisfaction, and operational efficiency across all restaurant branches.

The main purpose of this dashboard is to help management evaluate branch performance, monitor employee productivity, identify top-performing branches, and improve overall operational efficiency.

Audience

- Restaurant Managers
 - Operations Managers
 - Branch Managers
 - Senior Management
 - Business Decision Makers
-

 - Which branch has the shortest average preparation time?
 - How is revenue distributed across restaurant branches?
 - Who are the top-performing waiters based on revenue?
-

Analysis Results and Answers

1. Total Branches

The restaurant operates across **6 branches**.

2. Total Waiters

The restaurant employs **12 waiters** across all branches.

3. Revenue by Branch

Restaurant branches are ranked by total revenue as follows:

- Downtown — **1,605,592.75**
- Mall Branch — **1,275,753.75**
- East Side — **1,018,298.75**
- West End — **793,045.00**
- Nasr City — **593,285.50**
- Airport — **575,152.25**

Downtown is the highest-performing branch, while Airport generates the lowest revenue.

4. Orders by Branch

The number of completed orders by branch is:

- Downtown — **5,234 orders**
- Mall Branch — **4,214 orders**
- East Side — **3,278 orders**
- West End — **2,521 orders**
- Nasr City — **1,927 orders**
- Airport — **1,835 orders**

Downtown processes the highest number of customer orders, reflecting strong customer demand.

5. Revenue by Waiter

The highest revenue-generating waiters are:

- Ahmed Hassan — **806,369.00**
- Mona Adel — **799,223.75**
- Omar Ali — **657,538.25**
- Sara Mostafa — **618,215.50**
- Youssef Mohamed — **523,925.00**

Ahmed Hassan generated the highest total revenue among all waiters.

6. Orders by Waiter

The waiters with the highest number of completed orders are:

- Ahmed Hassan — **2,625 orders**
- Mona Adel — **2,609 orders**
- Omar Ali — **2,130 orders**
- Sara Mostafa — **2,084 orders**
- Youssef Mohamed — **1,686 orders**

The ranking of waiters by completed orders closely matches their revenue performance.

7. Average Customer Rating by Branch

All restaurant branches maintain an average customer rating of approximately **3 out of 5**.

Customer satisfaction is consistent across all locations.

8. Average Preparation Time by Branch

The average preparation time is approximately **16 minutes** across all branches.

This indicates standardized kitchen operations and consistent service efficiency throughout the restaurant.

9. Revenue Distribution by Branch

Restaurant revenue is not evenly distributed across branches.

Downtown and Mall Branch contribute the largest share of total revenue, while Airport and Nasr City generate comparatively lower sales.

10. Top 10 Waiters by Revenue

The Top 10 revenue-generating waiters are:

- Ahmed Hassan
- Mona Adel
- Omar Ali
- Sara Mostafa
- Youssef Mohamed
- Nour Ahmed
- Khaled Ibrahim
- Salma Hany
- Mohamed Tarek
- Ali Mahmoud

These employees contribute a significant portion of the restaurant's total revenue.

Key Business Insights

The Branch & Operations Performance dashboard reveals several important findings:

- The restaurant operates through **6 branches** supported by **12 waiters**.
 - **Downtown** is the highest-performing branch in both revenue and completed orders.
 - **Mall Branch** ranks second in both sales and order volume.
 - Customer satisfaction is consistent across all branches, with an average rating of **3 out of 5**.
 - The average preparation time remains consistent at approximately **16 minutes** across every branch, reflecting standardized kitchen operations.
 - **Ahmed Hassan** is the top-performing waiter in both total revenue and completed orders.
 - Revenue is concentrated within Downtown and Mall Branch, suggesting these locations are the primary drivers of business performance.
